Tom,

As per your request, we will extend our review on this project by two weeks. Please provide your comments by May 18, 2012. The Division is planning a visit to the site near the first part of June and we would like to have our review and comments compiled before that date. We have tentatively scheduled June 6-7 for the trip, but we will confirm this as the date draws nearer. Thanks.

Daron,

As a follow-up to our discussion this morning, the Forest has not had an opportunity to look at the mitigation plan in detail due to other time commitments. I apologize for the delay.

If we could hold this open for a few days we would greatly appreciate it until we have an opportunity for internal review.

Also, I understand that April Abate is planning a field trip sometime in June? We would appreciate an opportunity schedule the appropriate staff to the on-site inspection/meeting.
